TOWN AND FARM IN WAR-TIME

Maternity Care For Servicemen's Wives

More than three-fourths of the states have received approval by the Children's Bureau, Department of Labor, of programs for medical day. and hospital maternity care for the wives of men in the four lowest pay grades of the armed services. The programs also luclude medical care for babies. A serviceman's wife may make application for complete medical care during pregnacy and childbirth, and for six weeks after childbirth. She may also apply for medical care for her child to extend throughout the child's first year of life. To get such care, all that the wife needs to do is to fill out simple forms, which, if her own doctor is unable to furnish copies, she can get from the State health department.

Can't Send Recordings Overseas

A LITTLE BIT ABOUT

AND A LITTLE BIT OF

-In behalf of the blind man, let's keep bicycles and other obstructions off of the sidewalks, next to the walls. Don't blame Will Andress for kicking and shoving the bicycle he ran into Monday. It's not funny and a traffic obstruction that should not be permitted. In fact, all sidewalks are as much the traffic lane as any may be called "little" is no excuse for making it a "hick town."

-Guess that Fisher county man who wanted the Herald to advertise for his lost crop has found it by now. The last time A. A. C. saw his date must likewise be so inscribed. crops of about 350 acres it was lost shoulder high, as testified by a neighbor.

-Cotton bolls are in evidence these days....so listen to the cry of pests, and more pests. The dry weather is dandy on cotton, but it takes more rain than has come to make cotton.

-There is a lot of guessing going on about the war....just how long will it take the Allies to check off Sicily? Which will be hit next, the mainland, Sardinia or Crete? Will the United Nations strike in France, on the south or in the west, and when? What will happen when and if the Russians begin, to pile over Born to Mr. and Mrs. Zack, east turning to her work in San Diego, home bases? Will Germany last through the coming winter? So the guessing goes on. All anybody really knows is that there are three guys, Hit & Mus and old Hiro, who will hear thunder before this time next

-It is now a good idea to learn some more geography, so let's imagine we see Sicily, like a triangle with the base on the east and the bottom side of the map the south side, and the other side the north-the point is to the west-that's easy. In the east is Syracuse and up the coast is Augusta, Catania, Acireale, Taomina and MESSINA. Most all the towns on the east side below Messina and the south are already in OUR hands. So from here on till Italy surrenders we'll hear a lot of "musical" names. Know where they are when you hear them.

-This is a season of the year when Tax Assessors and Collectors are getting ready to tell you "how much"....we have received a paper from the state of Illinois. Up there it seems the law provides publication of how much each piece of real estate is assessed and how much personal property one has from \$25.00 up....nothing hidden from your neighbor up there. If one has personal property valued at, say \$500 and gives it in at \$50, it is known, and how! Maybe Texas should have a similar system.

-Keep your ears to the radio ... this U S is on its way it all de-Mrs. W. T. Cherry and Jimmy are pends how much is at stake as to our losses....better take plenty of time than try to imitate Hitler if we know Sicily is ours, and it is, why be in a hurry? There's plenty to hammer at on the mainland.

> -It seems that our boys and girls in service appreciate their "Home-Town" paper almost equal to a letter from their "girl", and this makes us hate like heck to stop a paper just because the time paid for is up. Anyone who sends a service man or woman the Herald, please help us keep them hearing from home through the Herald, by renewing their paper. And remember from here out we are not entering any subscription for anybody for less time than 12 months. This will help us keep from raising the price immediately. Don't forget this. 12 months, \$1.00 in advance.

> Earl Temple and children of Lamesa were here Wednesday to visit their father, W. N. Temple. Earl went on to Fort Worth on business.

> Mrs. John Connell returned Wednesday to her home in Phoenix, Arizona, after spending two months with her mother, Mrs. A. G. Hudson,

stop a soldier from fighting: Kill him, wound him or capture him.

camps on and hold prisoners. This time we do not have any place suit- a little different feeling. able to take care of prisoners. So they do not escape.

Italians, maybe Germans. It will take try. Already there is a scramble by feelings will determine how the come communities to get such camps, government may handle the problem, mostly for personal reasons.

Under the International agreement this country 80 cents per day. In or Italy pay for it? their camps they do all their own

labor really be cheap? What would good to know. "Seeing is believing."

be the community reactions? Who would be benefitted and why? Would there be as many objections on a going to be more and more in the "government job" as on a private

So as this country accumulates more and more prisoners there is hold, but the American prisoners going to be a great clamor for them to "come out and work." Nobody Before this week, this country al- wants to be cruel, inhuman, even to ready received perhaps 40,000 Ger- a Jap prisoner, who has been taken honorably in battle. Nobody wants to There are only a few ways to treat prisoners as royal guests, but just on a comfortable scale, safe from harm to home people. Suppose It is far different this time com- you have a boy held a prisoner, you pared to the First World War. Then look upon a blue-eyed handsome we had lands in Europe to make young German out there working, or a singing light-hearted Italian with

To say the least of it, any labor it is economy to bring them to our from prison camps should be volunshores in empty ships, and put them teers. If they wish to work, and in camps and feed them and see that somebody else will bear the expense of getting them to it, and back to From here on we shall be getting camp, let it be their will, without more and more prisoners, especially force inside camp or out. No matter how an individual feels he can't more and more camps in this coun- change things, however community and it is going to be a problem. We see where a camp to hold 3000 men prisoners are paid, we understand in is to cost \$1,000,000. Will Germany

Here is a suggestion worth somemanagement, cooking, doctoring and thing: Suppose out of the 15,000 hospitalization, and we further un- German prisoners, the government derstand that their government will should pick 1,500 of the best, most be presented the bill at the peace capable, and arrange a military estable, so let's bear that in mind. cort, with good interpretors, and car-It is up to US to see that they pay. ry them over a 10,000 mile journey There is also some kind of under- of this nation; let them get a glance standing about working war prison- of what we are building, how much ers. There is a lot of ground for this and that, plants, factories, arargument on that line. If the men senals, ships, tanks, and limitless wish to work, and are treated right fields of food; happy prosperous and well cared for and get extra people from coast to coast. LET 'EM pay above the 80 cents, it might be see, and then tell them, even ento their welfare to have a chance to courage them to write back home, work at something. So there is room but censor their letters, but see to it for a lot of argument on this line. | that the letters get back into Ger-Suppose a county, a town, an indi- many. Let Germany know before vidual farmer—anybody had enough hand about this "education". Let 'em work for about 15 men to do in a write two times, and finally tell them few days. The men may know how "we are going to take you home, to do the work and they may not. drop you out over your own country They may be seeking a chance to by parachute; tell your people what escape and maybe not. We under- is coming and the quicker they unstand they are not to be hauled more derstand America and quit the war, than 30 miles to work. To safely the better for them. This may sound carry 15 prisoners, 15 miles, would strange way to treat prisoners, but require a safe truck, a driver, gaso- it would help do some of that teachline, oil, several guards, food and ing we've got to do some day. It water, and even some emergency might save the lives of a few hunmedicine. You see even if they wish- dred thousand good American boys ed to work there are plenty of things too. Let 'em see enough to convince, to be figured out. Would the "cheap" but nothing that would do them any

Another thing, let's urge faster exchange of our prisoners. Why not propose giving ten Japs for one American boy? If we run out of Japs, catch some more. Let's give some odds on German-held prisoners too. Italians do not count.

Keep your ear to the ground about prisoners. We have got to take a lot of them yet and through them this nation can do some good teaching for future peace. We do not want ohter peoples to fear us but to respect and admire our way of life and Christian spirit.

Enlisting Idle Acres For Food Production

New Goals Demand Full Use of Available Land

Getting idle acres back on the job is high on the list of "must" activities for the farmer-committeemen of the Agricultural Adjustment agency

during '43. With production goals adding up to a tremendous total in food and fiber, maximum use of all agricultural resources will have to be employed to meet minimum demands for farm products, Secretary of Agriculture Claude R. Wickard has announced. Land as well as machinery, labor and other tools of production is included in the department of agriculture's program.

As with other aspects of the Triple-A farm plan, each community will do the job of enlisting its own idle acres and idle farms for duty on the food front.

Secretary Wickard has requested that Triple-A committeemen, both county and community, locate available tracts of land in their districts which are not now producing, and take whatever steps are feasible to put them into useful activity.

Assistance will be given by the county USDA war boards where cases cannot be taken care of locally, and these boards have also been instructed to be prepared to help wherever possible in locating operators in financing operations if

Modern Bo-Peeps

Two girls are pictured inside the sheep pen at the University of New Hampshire, where they are taking a war course in agriculture and husbandry.

required through available loan programs, or in helping the operator obtain labor or machinery should these items stand in the way of any land use.

Farmers have also been urged through Triple-A to rent to other operators acreage they themselves cannot put to work. Persons capable of managing a small farm, or of taking on additional cropland, will in turn be able to rent acreage from operators who already have under cultivation all they can possibly handle but who wish to see every square yard of their land in production.

One of the most interesting displays of South Sea Islands goods has been received by Mrs. R. L. Kite, from her son, Marine Delbert Kite, who has been deep in the Southwest Pacific for over a full year. He sent the several articles in a big wooden box, surprisingly large to come thru the mails. Maybe soon we can induce Mrs. Kite to let us tell you these articles can be seen in a show window down town. Delbert is having a hard time and it seems his time of service "down under" should permit him a furlough and a change of climate.

HERE'S WHAT MAKES AMERICA GREAT:

(For more than a year now, the

Herald has not been able to hear much about our young ranchman, new attorney and Ensign W. F. Martin. His mother has been in Dallas and Mineral Wells a great deal of the time and we could only know the the job. I hope to see peace on young man, who is now rated Lieut. (j. g.) was somewhere on one of keep Old Glory waving high. I want those fast PC boats on the Atlanticto be in good old Hamlin soon. So North Africa-Mediterranean part help us God to bring us boys back of the world. We have just seen two letters from him to his mother, one dated April 26, and the other May 21. One before the Tunisian victory We have a letter from Flight Of- and one after.) In the first he says: ficer William B. Teague who tells us "We have had a regular rat race Washington, D. C. This young man fles you can get in the coffee shop of the Baker right this minute. When you eat one in the morning think of a way to put one in a V-Mail and send to me. I have not had a white man's breakfast since I left home. Could enjoy about two weeks right where you are now." (Mrs. Martin was at the Baker.)

Bill Martin has been in some hot

spots over there fighting the subs, and it seems some of the information about some of the fellows back home don't set so well. He says, concerning certain former college mates, "Some of these guys are doing pretty well for themselves in this war, it seems. However, it is surprising how much satisfaction I take in the fact that I can look a man straight in the eyes when he asks me where I was when the war was fought. I suppose some people place too much value on a good name, but I don't believe I would have ever felt right inside if I had shoved the dirty work at some other when this mess came along. Aside from that factor, if no accidents happen to me before I get back. I feel this time in the service will afford me something I would have always lacked if I had not had it. After all, one is here primarily to preciation and understanding for as many people and things as possible ...not just to pile up riches and look for fame there is a lot of scenery and a lot of insight into the people of various types-both good and bad-that I would have missed completely....So far you know, I have set foot on three continents and a host of islands most people never see where we come from The meat situation over here has loosened up some. We are getting pretty good beef all the time now and our meals are generally very well rounded and good I would still like the waffle."

Bill, your sentiments are valuable, and enough to make any mother or neighbor proud of you. (On May 21 his letters still ring fine). He says: "I am sitting here in North Africa on my 24th birthday trying to think of something to write and wishing I were home and that this whole stinking mess were over-just by way of a birthday present, maybe this time next year!!....I can't help thinking today how lucky we are in spite of everything. If you were only here you would understand why I am so proud to own good land and cattle in a great place like Texas. I would have never understood how much we have at stake in America without being in this place." Again this young attorney rings a note that should make every one feel more determined to fight on and help back home in every way possible. America will have a place for such men as W. F. Martin and his buddies when they have finished a nasty job and get back home to help straighten out and keep things going for "Comfort, Security and Independence."

Mrs. Charlie Myatt was appointed chairman of a Social committee to present certificates at a county-wide gathering.

Taylor County Victory Short Course programs were handed out and discussed.

Mrs. Glynn Reynolds of Avoca, Mrs. Valera Rainwater of Carpenter's Gap and Mrs. C. D. Bingham, were delegates selected to attend the State Home Demonstration Associa- Birthday Party tion at Dallas in August.

Mr. J. M. Binion, County Agricultural Agent, spoke to the group on labor problems and how they might be solved.

Machine clinics were announced for Avoca July 15, Golan July 21, Boyd Chapel July 27, and Carlton July 30.

A drying demonstration, at New Hope at Mrs. Chas. Walsh home on July 19th, Willow Creek July 14, home of Mrs. Maxey Harvey, July 29, Hanna.

Nutrition classes July 12, Stith; July 16, Goodman; July 23, Carpenter's Gap; July 26, Compere.

The meeting adjourned and will meet again September 1, Wednesday at 2:30 P. M. County Court Room.

The First **BAPTIST CHURCH**

Longfellow said that Sunday was the golden clasp that binds together the volume of the week. Another has said: "He that remembers not to keep the Christian Sabbath at the beginning of the week, will be in danger of forgetting, before the end of the week ,that he is a Christian." Make strong the clasp that binds your weeks together! Attend all the services in God's house. You cannot steadily avoid the house of prayer and public worship on the Lord's Day without eventually coming to grief, and bringing others with you.

A warm welcome awaits you at the First Baptist church. Our regular worship services come at 11:00 A. M. and 8:45 P. M. each Sunday. Visitors are always welcome. Sunday School and Training Unions at 10:00 A. M. and 7:45 P. M.

H. E. East, Pastor

Miss Suzanne Hudson is spending two weeks with her aunt, Mrs. J. E. Griffin at Ackerly. She accompanied at 4 o'clock. Mr. and Mrs. Griffin home about July 5th.

Get your Typewritter Ribbon at the HERALD OFFICE.

HOW ARE YOUR EYES?

Whatever your job, you are part of America's War Effort. So, have your eyes examined. Even if you have glasses, you might have out-grown them.

Also, if light glare gives you eye fatigue, we can furnish you color in glasses that meets U. S. Army Air Corps specifications.

Meat-Drippings Make Fine-flavored Dishes

Use fats carefully and thriftily; give left-over fats to the government to make ammunition

Frying:

Use drippings or rendered fats from pork, beef, or chicken. Fry chicken in bacon drippings.

Shortening:

Here are some of the dishes that thrive on homerendered meat fats: Chocolate cakes, and Spice cakes (pork, beef, or chicken). Biscuits and Muffins (pork). Molasses Cookies, Gingerbread, and Meat Pie Pastry (beef). Delicate Pastry (chicken).

Seasoning:

Creole Sauce for cabbage or turnips (beef drippings). Meat Sauces, Meat Stuffings, Scalloped Potatoes, Croquettes, and Vegetables (chicken). Split Pea Soup, Potato Soup, Vegetables, and Dried Beans (pork, especially ham drippings).

> Your butcher pays you the government price for your salvaged fats.

To Measure Victory Fats

Use two tablespoons less per cup than of ordinary fat called for.

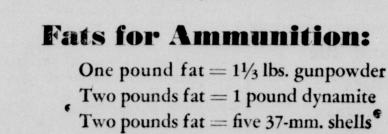

To Clarify Fats:

Use potato slices to "take up the slack" ... to one cup of fat, use half of medium-sized potato cut in one-quarter-inch slices, added to the cool fat. Heat gradually until fat stops bubbling. Strain through cheesecloth or a fine sieve. If strained and stored in refrigerator, and NOT SCORCHED, fat can be clarified again, even after frying fish. (SCORCHED fat is not good enough for dynamite, even.) Keep in gas refrigerator.

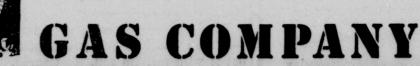

To Render Raw Fats:

Cut suet and other fats in small pieces. Boil in water. Let chill, and lift the white cake to store in refrigerator.

This advertisement is a part of Lone Star's wartime service, and to remind you to use your natural gas wisely; do not waste it, even though it is cheap and rich. And please take care of your gas range and refrigerator, to make them last till we win this war.

COMMENT No. 1. Like all Americans, we are happy over the fact that our boys and the boys of our Allies are pounding the Axis troops on all fronts. Especially is the news good from the Sicilian front where the Allies are at this moment pressing forward toward their goal. There is much fighting yet to be done, yet we are inclined to believe that Musso (the Little Duce) will be soon fleeing the country where a few months ago he strutted like a Ban-

The Americans in the south and north Pacific are giving a good account of themselves and many Japs are biting the dust and many enemy ships are going to Davy's locker and thanks to the leadership of our troops as well as the boys who

carry the burden. The home front seems to be on the up and up. Strikes are beginning to let up and when we all, in all the walks of life, get down to this business of winning the war, the sooner it will be over. Over confidence has lots many a ball game. There are big battles still ahead and thumbs up-neighbor.

What You Buy With

It's not a pleasant picture to contemplate, but War calls for "blood and sweat and tears." And the Army Medical Corps, with its efficient nurses and its volunteer Red Cross "Angels of Mercy," needs thousands of surgical beds for field and base hospitals on every front.

These beds cost approximately \$22 each. They are the latest thing in modern hospital beds, with elevating springs. In some instances surgical cots are used in temporary field hospitals and there is a folding bed which may be used in ambulances. Your purchase of War Bonds and Stamps can buy many of these beds for the Army. You'll sleep better if you know our boys have every hospital comfort. Buy War Bonds every pay day. Invest ten percent of your income.
